

56th New England Complex Fluids Workshop

September 20, 2013

Gateway Park, GP1001
Worcester Polytechnic Institute
Worcester, MA 01609

Objectives

The workshop brings together researchers with an interest in soft condensed matter and biophysics to discuss their work and explore collaborations. The day will include breaks for lunch and coffee. Attendees are encouraged to present short talks (~3 min) and/or posters that highlight current research. Poster spaces are limited (~20 posters) and are first-come first-served. The event is free; registration is required at www.complexfluids.org

Invited Speakers

- **Germano Iannacchione**, Worcester Polytechnic Institute
Liquid crystal and protein colloidal dispersions
- **Jay X. Tang**, Brown University
How does a motile bacterium cope with complex fluids and interfaces?
- **Arne Gerick**, Worcester Polytechnic Institute
tba
- **Arshad Kudrolli**, Clark University, Physics Department
Pearling and arching instabilities in granular suspensions

Organizing Committee

Dr. Qi Wen qwen@wpi.edu
Dr. Germano S. Iannacchione gsiannac@wpi.edu
